

Year 9

1. Physics Paper 1

Autumn Term

Energy, Electricity, Particle Models of Matter, Radioactivity

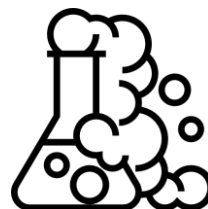

2. Assessment Window 1

Assessment to cover P1 Content

4. Assessment Window 2

Assessment to cover C1 Content

3. Chemistry Paper 1

Spring Term

Atoms, Periodic Table, Bonding, Metals and Salts, Electrolysis and Energy changes

6. Biology Paper 1

Summer Term

Cells, Organisation, Disease and Bioenergetics

8. Assessment Window 3

Summer Mock

CAREERS: At every available opportunity, teachers will introduce and promote careers links to the topics being studied (See Careers booklets).

Year 10

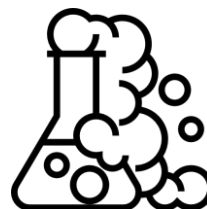

1. Biology Paper 1 Retrieval
Complete Biology Paper 1 and do retrieval

2. Assessment Window 1
Biology Paper 1

4. Assessment Window 2
Assessment on Chemistry 2

3. Chemistry Paper 2
*Rates, Equilibrium and Organic Chemistry
Analysis and Earths Resources*

5. Biology Paper 2
February - July
*Biological Responses, Ecology, Genetics and
Reproduction,*

6. Assessment Window 3
Biology Paper 2 Mock

CAREERS: At every available opportunity, teachers will introduce and promote careers links to the topics being studied (See Careers booklets).

Year 11 – Pupils will do additional papers outside of assessment windows and outside of the mock calendar

1. Physics Paper 2

September – January

Forces in Action

Waves, Electromagnetism and Space

3. Assessment Window 1

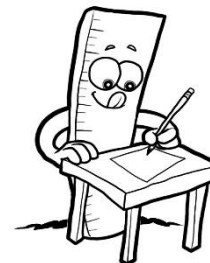

Biology Paper 1 and Chemistry Paper 1

5. Assessment Window 2

Chemistry paper 2

Physics Paper 2

4. MOCK EXAMS

November - December

Physics Paper 1

Biology Paper 2

6. Revision

January – April

In class revision starts to revise content and practice exam questions on all 6 science papers

8. Boosters

May - June

CAREERS: At every available opportunity, teachers will introduce and promote careers links to the topics being studied (See Careers booklets).
