

Year Group: Year 10 Britain: Health and the people & Elizabethan England c1568-1603

1. Britain: Health and the people

This thematic study covers over 1000 years in the history of medicine and public health in Britain. Students will explore how medicine and public health changed, why change happened when it did, whether change brought progress, and the significance of the changes.

2. Assessment Window 1

Assessment window on Paper 2 Part A

4. Assessment Window 2

Assessment window on Paper 2 Part B

3. Elizabethan England c1568-1603

Elizabeth I grew up surrounded by people who said that no woman was capable of ruling England. Yet the Elizabethan age saw great change in all areas of society. In this unit, students will gain an understanding of the complexities of Elizabethan society and how its different aspects fit together.

5. Historical Environment

The Globe Theatre
